'COLLECTION V'

## ‘COLLECTION V’

Collection V draws its inspiration from the psychedelic 60's. Acid colors and fun patterns are mixed with mini lengths and baby doll shapes. 60's girl groups like the Ronettes, the Shangri-Las and the Supremes also influenced this collection. We utilized glittery and girly fabrics, lots of ruffles and feathers remind us of their amazing matching stage costumes that mesmerized the eye and drew you in. Flashes of silver within the collection reference Andy Warhol's foil-covered factory: the ultimate 60's hangout where art, fashion and pop culture collided. Psychedelic flowers, punchy geometric patterns and colorful swirls remind us of the freedom, creativity and inventiveness of our favorite decade.
